

RESUME

PERSONAL DATA

- Name **JACOB SAMPLEMAN**
- Address Bakerstreet 312/12
06320 London, United Kingdom
- Phone +44 1 123456 11
- E-mail sample@joinvision.com
- Nationality United Kingdom
- Date of birth 25/09/1978

PROFESSIONAL EXPERIENCE

- Date *since July 2005*
- Project title **Project manager Insurance Industry**
- Company Mercury Insurance Company Inc. (Freelancer, Project manager)
- Fields of activity
 - Project management
 - Architecture
 - Software development/design
- Gained skills
 - Business know-how: Insurance
 - Data Management: MySql
 - Development tools & Technologies: Java/J2EE
 - EJB
 - Hibernate
 - HTML/XHTML
 - JSP
 - Programming Languages: Unix Shell Script
 - Java
 - Specific software: Backup and archiving systems
 - Process management
 - System software: Unix general
- Additional details

In this project I was the project leader and responsible for the whole software system. The major task was to build up a completely new application for the processing of claims with optimized work flow processes and a paperless office. My task was to choose a system architecture which would ensure high availability, easy usability, best performance and low operational costs. Furthermore, many interfaces to the existing core systems had to be considered. In two months we will be able to complete this system successfully.

- Additional details

January 2003 - June 2005

Software Developer Metal Industry

First London Software Company Ltd. (Employee)

- Software development/design
- Architecture
- Project management

- Development tools & Technologies:
 - Java/J2EE
 - JSP
- Methods/Architecture:
 - OOA/OOD
- Middleware/Transactions:
 - BEA WebLogic Server
 - Apache Tomcat
 - WebServices
- Programming Languages:
 - Java
- System software:
 - Linux

During this interesting project I have had different tasks. Our customer was a reputed, internationally operating, metal company. First I was a programmer for several logistic modules. After one and a half years I was promoted to the chief software architect and was responsible for the whole development crew of the project. Hence, I have gathered a lot of experience in software engineering, creating high quality system architecture, and in project and quality management.

- Additional details

September 2000 - December 2002

Software Developer Financing Systems

First London Software Company Ltd. (Employee)

- Software development/design
- Data Management:
 - MS SQL Server
 - Programming Languages:
 - C
 - C++
 - System software:
 - MS Windows Server 2000/2003

In this project I have worked in a dynamic development group, where I have gained a lot of experience in professional software development. Our customer, a well-known bank, was very satisfied with the results of this project.

SCHOOL AND PROFESSIONAL EDUCATION

- Date
- Institution
- Graduation
- Gained skills

September 1996 - June 2000

Harrow School of Computer Science, University of Westminster, Informatics

Bachelor / Master (polytechnic university, university), ISCED 5

- Data Management:
 - SQL
- Network:
 - TCP/IP
- Programming Languages:
 - C++
- System software:
 - Unix general

- Date
- Institution
- Graduation

September 1992 - June 1996

The Sacred Heart High School, London West 6, Informatics and Mathematics

High school diploma (vocational school), ISCED 4

- Date
- Institution

September 1988 - June 1992

St George's R C Secondary School, London West 9

- Date
- Institution

September 1984 - June 1988
Queens Park Primary School, London West 10

PERSONAL SKILLS AND COMPETENCE

- Native language
- Other languages
- Other information

English

German: perfect

French: good

I am searching for a new challenge as project leader in which I can use the experience I have gained in project management and building up high complex software architectures.
